MX54

DVB-T receiver

The smart MX54 receiver offers great comfort in a small format.
The integrated EPG provides an electronic program overview, with details about each program. It is equipped with a USB port on the front, allowing a fast connection of a USB flash drive or a hard drive*. With the integrated Media Player you experience „entertainment“ e. g. watching the best holiday moments from the USB memory at the touch of a button.

* Only hard drives with external power supply are usable.

MX54

DVB-T receiver
